

BUILDING AND SITES

Series 800

POLICY TITLE ENERGY CONSERVATION

No. 802.7

In concert with the board's goal to utilize public funds in an effective and efficient manner, employees and students shall practice energy conservation methods when utilizing the school district's buildings and sites. These methods include, but are not limited to, turning off lights and equipment when not in use, reducing the temperature of the facility, particularly when it is not in use, and keeping windows and doors properly closed or open, depending upon the weather.

It shall be the responsibility of the Director of Buildings and Grounds to develop guidelines for employees and students for energy conservation. It shall be the responsibility of employees and students to abide by these guidelines.
